University Exploratory Studies Program (UESP)
   (Waldo Hall 102, 541-737-8144)
   New and current OSU students have the option of being undeclared while they explore possible majors. UESP advisors help students to clarify interests, values, and abilities and to reflect upon university experiences as they relate to major options at OSU. UESP does not grant degrees but serves as an academic home for students until they are ready to declare a major. UESP is available on both the Corvallis and Cascades campuses.

*Pre-Medical Studies at OSU
Students wishing to become physicians (M.D. or D.O.) can complete an undergraduate degree in any field of study, but they must take and finish certain required science and liberal arts courses as undergraduates prior to applying to medical school. Med schools accept students from diverse academic backgrounds, but admission is competitive. Pre-med students might choose from majors in the colleges of Science (Biochemistry/Biophysics, BioHealth Sciences, Biology, Chemistry, Microbiology), Engineering (Bioengineering, Chemical Engineering, Radiation Health Physics), Public Health and Human Sciences (Nutrition & Kinesiology, Public Health, Human Development & Family Sciences), Agricultural Science (BioResource Research), or Liberal Arts (English, Psychology, Philosophy, Spanish).

*Pre-Pharmacy at OSU
As with Pre-Med, students interested in becoming pharmacists (Pharm.D.) can pursue any undergraduate major as long as they meet the necessary prerequisites for Pharmacy School (which is also very competitive). OSU undergrads are lucky in that there is great College of Pharmacy right here on campus where they can get more information about becoming a pharmacist.

*Pre-Nursing at OSU
While OSU does not offer a BSN (Bachelor of Science in Nursing), there are ways that students can prepare themselves for such a path at OSU. In the past, students sometimes simply pursued prerequisite work at OSU before transferring elsewhere to finish the BSN. However, due to the highly competitive nature of nursing programs and the related job market, it has become much more common for students to complete a bachelor’s degree at OSU before attempting to join a nursing program. This avenue honors the students’ nursing interest, while also preparing the student for options and opportunities outside of nursing. Majors in the Colleges of Public Health & Human Sciences and the College of Liberal Arts are common choices for fit with this interest. Students might also pursue a major in the College of Science, but will not find “pre-nursing” listed amongst the options.

Oregon State University Honors College
   (Learning Innovation Center 450, 541-737-6400)
The Honors College (HC) is a small degree-granting college at Oregon State University where enrolled students work toward an Honors Baccalaureate degree in their academic major(s). The HC engages students in unique curricular and co-curricular experiences designed to help them explore the many opportunities offered by OSU. Honors undergraduates can explore a range of interest areas through small courses and dive deeply into a single discipline through an immersive original research project, guided by a faculty mentor. The Honors College course offerings change each year to adapt to student interests and to take full advantage of the wide-ranging expertise of Oregon State University faculty. The Honors College is available at Corvallis and OSU-Cascades.
